

## Environmental Policy

Maxwell Freightlines Pty Ltd (MFL) is committed to ensuring that environmentally responsible behaviour is embraced as an integral part of our business.

As such we:

- Ensure that environmental considerations are incorporated into all aspects of our daily operations.
- Use our best endeavours to conduct our operations in a way that will minimise undesirable effects on the environment.
- Comply with the relevant environmental legislations and regulations.
- Adopt a pro-active and responsible approach to the management of environmental impacts resulting from our activities.
- Strive to eliminate all incidents that give rise to uncontrolled environmental disturbance.
- Encourage all employees to become pro-actively involved in identifying environmental issues in the work place.
- Strive to achieve continual improvement within all areas of our business including environmental management and the prevention of pollution.
- All MFL vehicles comply with Euro 5 standards and MFL will continue to adopt and support the next level of standards.
- Use vehicles and equipment that meet Environmental Protection standards and to explore and implement energy saving technics.
- Implement and encourage reducing noise pollution in urban areas.
- Implement and respond to any chemical spills and to ensure all levels of compliance are maintained as to protect firstly human life and our environment.
